PROFESSIONAL SUMMARY

Full Stack Web Developer with over **2 years of experience** building responsive, scalable, and secure web applications through internships, academic programs, and independent projects. Proficient across the full stack, including **React.js, Next.js, Node.js, Express.js and Laravel**, with hands-on experience implementing authentication, role-based access control (RBAC), RESTful APIs, and third-party integrations such as payment gateways and OAuth. **Certified Junior Web Programmer (BNSP)**, committed to writing clean, maintainable code and delivering production-ready solutions.

TECHNICAL SKILLS

Languages & Frontend : Javascript (ES6+), React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux
Backend & APIs : Node.js, Express.js, RESTful API, Prisma ORM, PHP, Laravel, Swagger (API Documentation)
Database : PostgreSQL, MySQL
Auth & Security : JWT, Role-Based Access Control (RBAC), OTP Verification
Integrations : Midtrans Payment-Gateway, Google OAuth (Authentication)
Tools & Platforms : Git, Github, Gitlab, Visual Studio Code, Postman, Trello, Jira, Vercel

PROFESSIONAL EXPERIENCE

Web Developer Intern — PT Shelter Indonesia Gemilang **Dec 2025 – Jun 2026**
Human Resources Management & Facility Services

- Developed an internal admin panel using React.js to streamline sales data management and support efficient data maintenance across company operations.
- Maintained and enhanced a courier deposit management system by implementing 5 new features and resolving application issues using React.js and Laravel, improving system functionality for internal operations.
- Developed 5 digital signage web interfaces using React.js to support branch launching events and showcase 5 company application products.
- Built an internal booking system using React.js and Laravel to manage reservations for meeting rooms, company vehicles, and office equipment, replacing manual booking processes with a centralized digital platform.
- Enhanced the customer activity module by redesigning the user interface and expanding data visualization using React.js, providing users with more comprehensive activity insights.

Tech Stack : React.js, Tailwind CSS, Laravel, MySQL, Git, Gitlab, Trello, DataGrip, Redux, Vs Code, Postman.

PROJECT EXPERIENCE

Website Coffee Order — Drulz Deals **Jun – Sep 2026**
Web Developer | *Open Link*

- Developed a web-based coffee ordering platform featuring discounted products from multiple coffee brands for client promotional campaigns.
- Implemented a structured product catalog to display coffee brands and menu offerings in a user-friendly interface.
- Integrated WhatsApp as the ordering and payment communication channel, enabling customers to place orders directly with the client.

Tech Stack : Javascript (ES6+), Node.js, React.js, Tailwind CSS, Git, Github, Vs Code, Vercel, Supabase.

Website E-Commerce — Cahaya Kreativ **Jan – Aug 2025**
Full-Stack Web | *Open Link*

- Independently developed a full-stack web application using React.js, Express.js, and PostgreSQL for a photography and videography service provider.

- Implemented authentication, booking management, payment processing, scheduling, and customer consultation features to streamline service ordering workflows.
- Designed and developed an administrative dashboard to manage services, products, customer orders, and booking schedules through a centralized interface.
- Deployed the application for production use, enabling the client to digitize and manage daily booking operations.

Tech Stack : Javascript (ES6+), Node.js, React.js, Tailwind CSS, Express.js, PostgreSQL, Prisma ORM, Neon, GCP, JWT, RESTful API, Redux, Imagekit, Midtrans, Github, Vercel, Postman.

Flight Ticket Booking RESTful API — Binar Academy **Feb – Jul 2024**

Back-End Javascript | *Open Link*

- Independently developed a RESTful API using Express.js and PostgreSQL for flight search, ticket booking, and payment processing.
- Implemented JWT authentication, request validation, and modular routing to ensure secure and maintainable backend services.
- Documented and integrated API endpoints with the frontend application to support end-to-end system functionality.

Tech Stack : Javascript (ES6+), Node.js, Express.js, PostgreSQL, Prisma ORM, Neon, GCP, JWT, Swagger, RESTful API, Midtrans, Trello, Github, Vercel, Postman.

Online Course Platform — Binar Academy **Aug – Jan 2023**

Front-End Javascript | *Open Link*

- Developed a frontend web application using React.js, Tailwind CSS, and Redux for an online learning platform.
- Implemented course management, enrollment, learning progress tracking, and administrative dashboard functionalities.
- Utilized Redux for efficient state management and optimized the interface for responsive performance across multiple devices.

Tech Stack : Javascript (ES6+), Node.js, React.js, Tailwind CSS, Redux, Trello, Github, Vercel.

EDUCATION

Bachelor of Information System (S.Kom) **Graduated : Jul 2025**

National Development University "Veteran" of East Java (UPNVJT) | Cumulative GPA: 3.88 / 4.00

CERTIFICATION

Certified Junior Web Programmer (Competent) **Oct 2025 – Oct 2028**

Professional Certification Board — Badan Nasional Sertifikasi Profesi (BNSP)

Skills: *Data Structures, User Interface Implementation, Programming Tools Installation, Programming Best Practices, Structured Programming, Using Pre-existing Libraries or Components, Code Documentation, Debugging.*

Study Independent Back-End Javascript — Binar Academy (MSIB Batch 6)

Study Independent Front-End Javascript — Binar Academy (MSIB Batch 5)
